Common Questions

Which package should I choose?

It depends on the listing and what you want from it. Here is a quick guide:

Photography Only
For listings that just need photos.

Photography Package
A cost-effective way to add drone photos and floor plans.

3D Tour Package
Great for out-of-state buyers and boosted on Zillow. Best for homes that show well.

Walkthrough Package
A simple video that shows the layout. Add an Agent Intro to increase reach on social media.

Signature Package
Our most popular. Built to help agents grow their business on social media and get new leads.

Property Campaign
Our Signature Package plus a Coming Soon video, real twilight photos and twilight video coverage. Built for luxury listings.

What's the difference between the Signature Video and the Walkthrough Video?

The Walkthrough Video is a simple tour of the home, room to room, about a minute long. It shows buyers the layout. The Signature Video is made for social media. We bring creative direction to every one, with something unique that fits the house, details that show how it feels to live there, and music and editing made for Instagram, TikTok and Facebook. If you want to grow your business through social media, the Signature Video is for you.

I've never been on camera. What should I do?

No problem at all. We work with agents all the time who have never been on camera. We come with a creative idea and help with your script, pick a few spots in the house, and keep the whole process easy. It usually takes about 30 minutes.

Should I get a Zillow or Matterport tour?

We recommend Zillow. Zillow is the number one marketplace for homes, and it does not support Matterport tours on its listings. Listings with a Zillow 3D tour also get a significant boost on Zillow, and the tour is easier for buyers to use. For commercial listings, Matterport is our recommended option.

Do you include object removal?

Minor object removal is free on every listing, like clothes in a closet or a car in the driveway. Clearing clutter from a whole home is our Extensive Object Removal add-on. If something is especially important, please add it to the notes when you place your order.

What if the weather is bad or the home isn't ready?

Weather reschedules are always free, and we'll find a date that works for you. Photos can usually still be taken on cloudy or rainy days and cleaned up in the edit. For video and drone, we recommend rescheduling. Non-weather reschedules with less than 24 hours' notice carry a $100 fee.

Do you travel outside Kansas City?

Yes. Most of the Kansas City area has no travel fee. We also travel further out, and you will see the travel fee for those orders at the final step of your order.
